Data and Business Analyst | UK | Open to relocation | Available immediately.

PROFESSIONAL PROFILE

Data and Business Analyst graduate with an MSc in Cyber Security and Forensics (Distinction) and a First-Class BSc in Business Information Systems. Hands-on experience using SQL, Python, Excel and Power BI to gather requirements, analyse and validate working data, build dashboards, automate reporting and communicate simple data driven information. Increased data-validation accuracy from 92% to 99.5%, reduced recurring data issues by 30% and saved 10+ hours each week through automation. Seeking entry-level Data Analyst, Business Analyst, BI, Reporting or Data Operations roles.

SKILLS

- **Data analysis and reporting**: SQL, Excel, Power BI, data cleansing, data validation, data quality, KPI reporting, dashboards, trend analysis, data visualisation and reconciliation.
- **Business analysis and delivery**: requirements gathering, stakeholder management, process mapping, UAT support, technical documentation, SDLC awareness, problem solving, project coordination and continuous development.
- **Technical tools**: Python (pandas, NumPy, scikit-learn), SQL queries, Excel (PivotTables, XLOOKUP/VLOOKUP, SUMIFS, IF formulas), Power BI (PL-300), DAX basics, Databricks, APIs, GitHub, Java and Linux basics.
- **Communication**: technical-to-non-technical communication, professional writing, presentations, collaboration and customer service.
- **Languages**: English and French fluent; Dutch beginner.

PROFESSIONAL EXPERIENCE

Click Resourcing Ltd **London, UK**
IT and Data Analyst Intern *May 2024 - Nov 2024*
IT and business consultancy provide technology support and data services.

- Gathered reporting requirements from colleagues and managers; prepared data from Excel, SQL and API sources, then built, tested and refined two Power BI dashboards used in regular operational reporting.
- Introduced validation checks and investigated data-quality issues, lifting validation accuracy from approximately 92% to 99.5% and reducing recurring issues by around 30%.
- Automated recurring data preparation and reporting activities using Python, saving an estimated 10+ hours each week and reducing reporting time by approximately 40%.
- Documented processes maintained UAT feedback notes and communicated technical findings to non-technical users.

Landsec **London, UK**
Insight Programme, Data and Technology Team *Oct 2025*

- Explored property and business data using Excel to identify performance trends and discrepancies, then presented findings and recommendations to stakeholders.

Wagamama **Braintree, Essex**
Front of House, part-time *Sep 2025 - Present*

- Deliver friendly, professional service in a fast-paced setting, respond calmly to changing customer needs and work closely with colleagues to keep operations running smoothly.

PROJECTS

AI Driven Phishing Detection System | *MSc Dissertation*

- Built an end-to-end Python and scikit-learn machine-learning pipeline for phishing detection in investment-banking communications. Prepared data, engineered features, trained and evaluated models on 500,000+ records, achieving a 99.2% F1-score.

Customer Data Analytics Pipeline | *Self-directed*

- Loaded, cleaned, transformed and validated data from multiple sources before connecting the outputs to Power BI for reporting. Used notebooks/workflows to develop practical ETL and data-quality skills.

EDUCATION AND CERTIFICATIONS

University of Westminster **London, UK**
MSc Cyber Security and Forensics, Distinction *2024 - 2025*
Modules: data governance, systems analysis, software delivery, regulatory frameworks and AI in business.

De Montfort University **Leicester, UK**
BSc Business Information Systems, First Class Honours *2021 - 2024*
Relevant focus: business analysis, requirements engineering, data management, operations and software delivery.

Certifications: Microsoft Power BI Data Analyst Associate (PL-300); Azure Fundamentals (AZ-900); Azure Data Fundamentals (DP-900); Security Fundamentals (SC-900); Google Data Analytics Certificate; SQL for Data Analysis.

LEADERSHIP AND ADDITIONAL EXPERIENCE

- **Cybersecurity Awareness Initiative, Project Lead**: organised and delivered 3-5 workshops for 30-40 participants, translating phishing and online-fraud risks into practical guidance for non-technical audiences.
- **Student Ambassador and Careers Student Advisory Panel Member, De Montfort University**: represented students and contributed feedback on the student and careers experience.
